

Sample College Rules

A Practice Document for RAG Pipeline Development

This sample document contains fictional college rules organized into clear sections for testing document ingestion, chunking, retrieval, and question answering.

1. Attendance Requirements

- Students are expected to maintain a minimum of 75% attendance in each course.
- Attendance is calculated separately for lectures, practical sessions, and other required academic activities.
- Students with attendance below the required minimum may be prevented from appearing for the final examination.
- Medical or exceptional attendance exemptions may be considered by the college administration after submission of valid supporting documents.

2. Examination Rules

- Students must carry a valid college identification card and examination hall ticket to every examination.
- Students should arrive at the examination hall at least 15 minutes before the scheduled start time.
- Electronic devices such as mobile phones, smart watches, and unauthorized calculators are not permitted unless specifically allowed by the examination instructions.
- Students must follow all instructions given by the invigilator during the examination.
- Any form of academic misconduct may result in disciplinary action and cancellation of the affected examination.

3. Leave Policy

- Students who are unable to attend classes must submit a leave request through the prescribed college process.
- Planned leave should normally be requested in advance and approved by the appropriate faculty member or academic authority.
- Medical leave should be supported by appropriate medical documentation when requested by the college.
- Taking leave does not automatically exempt a student from assignments, tests, practical work, or other academic requirements.

4. Grading System

- Student performance is evaluated through assignments, internal assessments, practical work, attendance where applicable, and final examinations.
- A typical grading scale used for this sample document is: A+ for 90–100, A for 80–89, B+ for 70–79, B for 60–69, C for 50–59, and F for below 50.

- Students must satisfy the minimum passing requirements specified for each course.
- A student who does not meet the passing requirement may be eligible for a supplementary or re-examination process according to college rules.

5. Academic Regulations

- Students must register for courses according to the academic calendar and instructions issued by the college.
- Students are responsible for completing coursework, submitting assignments on time, and following department-specific academic requirements.
- Plagiarism, fabrication of academic work, and other forms of academic dishonesty are prohibited.
- Students may be required to meet academic advisors for guidance on course selection, academic progress, or graduation requirements.
- The college may revise academic regulations when necessary. Updated regulations communicated through official college channels take precedence over this sample document.

Note: This is a fictional sample document created for educational and RAG pipeline practice. It does not represent the rules of any real college or university.
